

BLUE RIDGE ELECTRIC COOPERATIVE, INC.
Job Opening
Energy Services Consultant and Technician
January 8, 2025

Blue Ridge Electric will be accepting applications for the position of Energy Services Consultant and Technician. This position will require the successful applicant to provide his or her own transportation to and from the Pickens Division. If you are interested, please submit an online application and your resume to Taylor Lovinggood, Manager of Human Resources at humanresources@blueridge.coop by Friday, January 24, 2025. The requirements for this position are as follows:

1. Must be able to understand and comply with the rules and regulations of the BREC Safety Manual.
2. An Associate's or Bachelor's degree is preferred, but not required. A high school diploma is required.
3. Must have a valid SC Driver's License and possess or be able to obtain the DOT Physical Medical Card.
4. Work scheduled night, weekend, and holiday duty as well as emergencies (and other service interruptions) when requested, 24-hours per day, seven days per week.
5. Support the Cooperative's objectives, plans, and programs. The successful applicant must be able to work independently and collaboratively in a team environment with other employees and public, as well as support other departments when required.
6. Perform in-home/onsite consultation and services with BREC members and other customers to help them make the best decision for their energy service needs, which includes but not limited to; EV Chargers, Generators, Geothermal Units, Load Management, Smart Thermostats and Solar/Battery Systems.
7. Preferred mechanical and/or electrical experience to perform installations, scheduled inspections, maintenance and troubleshooting of our services.
8. Keep track of all consultation, installation and service work to prepare reports and maintain spreadsheets.
9. Must have exceptional communication skills to deal with existing customers, prospective customers, contract crews, as well as all BREC personnel.

10. The applicant must be willing to learn basic Energy Services knowledge and skills. Basic skills include the ability to understand the sales process, installation process, service and maintenance of all Energy Services products.
11. Must be willing to attend training for all services and complete certifications as required.
12. Must have exceptional computer skills using Microsoft Office and UPN/Meridian. Also, must have exceptional organizational skills to include multi-tasking, scheduling, and coordinate work, be self-motivated, and flexible.
13. Willingness to learn UPN and understand the billing and energy usage to help members with their energy service needs. Create service orders and document work performed.
14. Possess and maintain a professional appearance that is accepted by the cooperative.
15. The successful applicant will be willing to work under a 90-day trial period.
